

## Radiator Treatment

### #GS930

#### Product Description

Scale and rust can impede the flow of coolant within a vehicle's cooling system. **Gulf Select Radiator Treatment** slows the formation of rust and scale in new coolant while lubricating the water pump.

#### Features and Benefits

- Prevents rust and corrosion in the cooling system
- Inhibits formation of deposits that can cause overheating
- Lubricates the water pump
- Works with conventional and long life fluid

RADIATOR TREATMENT
