

Gulf Select

Coolant System Cleaner (Universal) #GS950

Product Description

Rust and scale can accumulate in the cooling system of a vehicle. These deposits can impede the flow of the coolant through the system. As well, scale can act as an insulator, which reduces the ability of the cooling system to transfer heat. **Gulf Select Coolant System Cleaner** eliminates rust and scale from the entire cooling system.

Features and Benefits

- Removes rust and scale and other residues from the cooling system
- Helps prevent the cooling system from overheating
- Extends the life of the cooling system

COOLANT SYSTEM CLEANER (UNIVERSAL)
